

Campaign 20 euros per month for 10 years

If you have come only once or if you have come often, if you have sent a friend, or if you have been in a course on herbal plants or a workshop on tree climbing, or if you would like to do this with other women, if you have stopped there during a trip or danced around the fire circle at night under the full moon...

Or if you have never been to Casa Fronda Viola but, as a feminist, lesbian, you know how important these spaces are for us, women's lands, separatist lands, in cities or in the country, you've been there, you need them or you have even chosen them as a place to live...

...then you may be strongly interested in continuing the existence of one of the rare places for women in Italy. You could then think of spending another summer near the sea and of sharing new adventures with other women in nature.

The contract for the rented house which has been Casa Fronda Viola for the last 10 years has been terminated. The women who have been part of this do not want to give up this experience and are thinking of buying a new house not far from the former space. They have set up the association «Amazones of the Third Moon» (that is the witches's moon) which would be the legal owner. The house has been found.

These amazons/witches hope to borrow funds from women and take a loan from the Mag6 (an ethical lending fund) which is following this project. However, they need your help.

With a **donation of 20 euros per month with a 10 years commitment** for the purchase of this house, you can help and know that there will be a place for women and lesbians where you and your friends, lovers, sisters, will be welcome.

In this way, the amazons/witches will be sure to be able to pay back the loan which would not be more than a monthly rent.

Already, 40 women have committed to this arrangement. Some have never come to Casa Fronda Viola, but they support the project because they need and believe in it.

If 50/60 women decide to support Casa Fronda Viola by committing to this arrangement, we can make this dream come true.

And if we dream together, then we can start creating reality...
